FACTUAL BACKGROUND

FASLODEX[®] (fulvestrant) intramuscular injection

22. FASLODEX[®] (fulvestrant) intramuscular injection is an estrogen receptor antagonist approved by the FDA for the treatment of: (a) Hormone receptor (HR)-positive, human epidermal growth factor receptor 2 (HER2)-negative advanced breast cancer in postmenopausal women not previously treated with endocrine therapy; (b) HR-positive advanced breast cancer in postmenopausal women with disease progression following endocrine therapy; (c) HR-positive, HER2-negative advanced or metastatic breast cancer in postmenopausal women in combination with ribociclib, as initial endocrine based therapy or following disease progression on endocrine therapy; and (d) HR-positive, HER2-negative advanced or metastatic breast cancer in combination with palbociclib or abemaciclib in women with disease progression after endocrine therapy.

23. FDA regulatory exclusivity for the use of FASLODEX[®] (fulvestrant) intramuscular injection as a monotherapy for the treatment of hormone receptor (HR)-positive, human epidermal growth factor receptor 2 (HER2)-negative advanced breast cancer in

postmenopausal women not previously treated with endocrine therapy will expire on August 25, 2020.

24. AstraZeneca UK Limited is the holder of approved New Drug Application (“NDA”) No. 21-344 for FASLODEX[®] (fulvestrant) intramuscular injection, in 50 mg/mL dosage forms. AstraZeneca Pharmaceuticals LP is the authorized agent for matters related to NDA No. 21-344 in the United States.

25. The use of FASLODEX[®] (fulvestrant) intramuscular injection is covered by one or more Claims of the ’122, ’160, ’680, and ’139 Patents.

26. The ’122, ’160, ’680, and ’139 Patents have been listed for NDA No. 21-344 in the FDA’s publication, *Approved Drug Products with Therapeutic Equivalence Evaluations*, which is referred to as the “Orange Book.”

27. AstraZeneca Pharmaceuticals LP sells and distributes FASLODEX[®] (fulvestrant) intramuscular injection in the United States pursuant to NDA No. 21-344.

DEFENDANTS’ ANDA

28. By Notice Letter dated September 10, 2019, Defendant Xiromed notified AstraZeneca that Defendants’ ANDA No. 213553 (“Defendants’ ANDA”) was submitted to the FDA and that Defendants are seeking approval to engage in the commercial manufacture, use and sale of the Proposed ANDA Product prior to the expiration of the ’122, ’160, ’680, and ’139 Patents, and included within ANDA No. 213553 a certification pursuant to 21 U.S.C. § 355(j)(2)(A)(vii)(IV) (“Paragraph IV Certification”) that the ’122, ’160, ’680, and ’139 Patents are invalid and/or will not be infringed by the manufacture, use, importation, sale or offer for sale of the Proposed ANDA Product. On information and belief, Defendant Chemo listed Defendant Xiromed as its United States designated agent with respect to ANDA No. 213553.

On information and belief, Defendants Xiromed and Chemo are acting in concert with Defendants Exeltis and Insud with respect to ANDA No. 213553.

29. On information and belief, Defendants were necessarily aware of the Patents-in-Suit when ANDA No. 213553 was filed with a Paragraph IV Certification.

30. On information and belief, the Proposed ANDA Product is a pharmaceutical formulation comprising fulvestrant, a mixture of 10% weight of ethanol per volume of formulation, 10% weight of benzyl alcohol per volume of formulation and 15% weight of benzyl benzoate per volume of formulation and a sufficient amount of a castor oil vehicle so that the formulation comprises about 50 mgml⁻¹ fulvestrant.

31. On information and belief, Defendants' ANDA No. 213553 refers to and relies upon AstraZeneca's FASLODEX[®] (fulvestrant) intramuscular injection NDA and contains data that, according to Defendants, demonstrate the bioequivalence of the Proposed ANDA Product and FASLODEX[®] (fulvestrant) intramuscular injection, including achieving a blood plasma fulvestrant concentration of at least 8.5 mg/ml⁻¹ for at least 4 weeks after injection.

32. On information and belief, the Proposed ANDA Product label will have instructions for use that substantially copy the instructions for FASLODEX[®] (fulvestrant) intramuscular injection, including instructions for administering the Proposed ANDA Product by intramuscular injection to treat hormone dependent breast cancer in accordance with FDA-approved uses for FASLODEX[®] (fulvestrant) intramuscular injection as described above in Paragraph 22. The instructions accompanying the Proposed ANDA Product will induce others to use and/or contribute to others' use of the Proposed ANDA Product in the manner set forth in the instructions. Defendants are blocked from seeking approval from the FDA to engage in the commercial manufacture, use, sale and importation of the Proposed ANDA Product for treatment

of hormone receptor (HR)-positive, human epidermal growth factor receptor 2 (HER2)-negative advanced breast cancer in postmenopausal women not previously treated with endocrine therapy prior to the expiration of AstraZeneca's data exclusivity on August 25, 2020.

33. On information and belief, the Proposed ANDA Product will have no FDA approved, non-infringing uses.

37. On information and belief, Defendants plan to, intend to, and will engage in the commercial manufacture, use, importation, sale and/or offer for sale of the Proposed ANDA Product immediately upon approval of ANDA No. 213553 and will direct physicians and patients on the use of the Proposed ANDA Product through product labeling.

38. On information and belief, the Proposed ANDA Product, when offered for sale, sold, and/or imported, and when used as directed, will be used in a manner that would directly infringe at least one or more Claims of the '122 Patent under 35 U.S.C. § 271(a).

80. On information and belief, the Proposed ANDA Product, when offered for sale, sold, and/or imported, and when used as directed, will be used in a manner that would directly infringe at least one or more Claims of the '139 Patent under 35 U.S.C. § 271(a).

81. Upon FDA approval of ANDA No. 213553, Defendants will infringe the '139 Patent by making, using, offering to sell, selling, and/or importing the Proposed ANDA Product in the United States, and by actively inducing and/or contributing to infringement by others under 35 U.S.C. § 271(b) and/or (c).

82. On information and belief, Defendants had knowledge of the '139 Patent when they submitted ANDA No. 213553 to the FDA and Defendants know or should have known that they will aid and abet another's direct infringement of at least one of the Claims of the '139 Patent.

83. The Notice Letter lacks any legitimate legal or factual basis for non-infringement

of any Claims of the '139 Patent.

84. Defendants had knowledge of the '139 Patent and are knowingly and willfully infringing the '139 Patent.

85. Plaintiffs will be substantially and irreparably harmed by the infringing activities described above unless those activities are precluded by this Court. Plaintiffs have no adequate remedy at law.

86. On information and belief, Defendants lacked a good faith basis for alleging invalidity and/or non-infringement of the '139 Patent when they filed their Paragraph IV Certification. Accordingly, Defendants' Paragraph IV Certification was wholly unjustified, and this case is exceptional under 35 U.S.C. § 285.

**COUNT VIII: DECLARATORY JUDGMENT OF INFRINGEMENT OF
U.S. PATENT NO. 8,466,139**

87. Plaintiffs hereby reallege and incorporate by reference the allegations of paragraphs 1–86 of this Complaint.

88. This count arises under the Declaratory Judgment Act, 28 U.S.C. §§ 2201 and 2202.

89. On information and belief, Defendants have taken and plan to, intend to, and will take active steps to induce, or contribute to, the infringement of the '139 Patent under 35 U.S.C. § 271(b) and/or § 271(c), after ANDA No. 213553 is approved.

PRAYER FOR RELIEF

WHEREFORE, Plaintiffs respectfully request that this Court grant the following relief:

- a) Judgment that the '122, '160, '680, and '139 Patents are valid and enforceable;

b) Judgment that Defendants' submission of ANDA No. 213553 was an act of infringement of one or more Claims of the '122, '160, '680, and '139 Patents under 35 U.S.C. § 271(e)(2);

c) Judgment that Defendants' making, using, offering to sell, selling, or importing into the United States of the Proposed ANDA Product prior to the expiration of the '122, '160, '680, and '139 Patents, will directly infringe, will actively induce infringement, and/or will contribute to the infringement of one or more Claims of the '122, '160, '680, and/or '139 Patents;

d) An Order pursuant to 35 U.S.C. § 271(e)(4)(A) providing that the effective date of any FDA approval of ANDA No. 213553 shall be a date that is not earlier than the expiration of the '122, '160, '680, and '139 Patents plus any other exclusivity to which Plaintiffs are or become entitled;

e) An Order permanently enjoining Defendants, their affiliates and subsidiaries, each of their officers, agents, servants and employees, and any person acting in concert with Defendants, from making, using, offering to sell, selling, marketing, distributing, or importing into the United States the Proposed ANDA Product until after the expiration of the '122, '160, '680, and '139 Patents plus any other exclusivity to which Plaintiffs are or become entitled;

f) Judgment declaring that infringement, inducement or contributory infringement of the '122, '160, '680, and/or '139 Patents by Defendants is willful should Defendants commercially manufacture, use, offer to sell, sell, or import into the United States the Proposed ANDA Product;

g) A declaration that this case is an exceptional case within the

meaning of 35 U.S.C. § 285 and an award of reasonable attorneys' fees, expenses, and disbursements of this action;

- h) Plaintiffs' reasonable costs and expenses in this action; and
- i) Such further and other relief as this Court deems proper and just.
