Counsel for Plaintiff Intra-Cellular Therapies, Inc.

**IN THE UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF NEW JERSEY**

Intra-Cellular Therapies, Inc.,

Plaintiff,

v.

MSN Laboratories Private Ltd.,

Defendant.

Civil Action No. _____

**COMPLAINT FOR PATENT
INFRINGEMENT**

(Filed Electronically)

Plaintiff Intra-Cellular Therapies, Inc. (“Intra-Cellular Therapies,” “ITCI,” or “Plaintiff”), by its attorneys, files this Complaint for patent infringement against MSN Laboratories Private Ltd. (“MSN”) and hereby alleges as follows:

Nature of the Action

1. This is an action for patent infringement under the patent laws of the United States, 35 U.S.C. § 100 *et seq.*, and for a declaratory judgment of patent infringement under 28 U.S.C. §§ 2201 and 2202 and the patent laws of the United States, 35 U.S.C. § 100 *et seq.*, that arises out of MSN’s submission of an Abbreviated New Drug Application (“ANDA”) to the U.S. Food and Drug Administration (“FDA”) seeking approval to commercially manufacture, use, offer for sale, sell, and/or import a generic version of CAPLYTA® (lumateperone) capsules, 10.5 mg, 21 mg, and 42 mg, prior to the expiration of U.S. Patent No. 12,090,155 (the “’155 patent”), 12,122,792 (the “’792 patent”), and 12,128,043 (the “’043 patent”) (collectively, the “Patents-in-Suit”).

2. MSN notified Plaintiff by letter dated February 16, 2024 (“MSN’s Notice Letter”) that it had submitted to the FDA ANDA No. 219248 (“MSN’s ANDA”), seeking approval from the FDA to engage in the commercial manufacture, use, offer for sale, sale, and/or importation of generic lumateperone capsules, 10.5 mg, 21 mg, and 42 mg, (“MSN’s ANDA Product”) prior to the expiration of U.S. Patent Nos. 9,956,227 (“the ’227 patent”), 10,695,345 (“the ’345 patent”), 10,960,009 (“the ’009 patent”), 11,026,951 (“the ’951 patent”), 11,052,084 (“the ’084 patent”), 11,690,842 (“the ’842 patent”), 11,753,419 (“the ’419 patent”), 11,806,348 (“the ’348 patent”), and RE48,839 (“the RE ’839 patent”).

3. On March 28, 2024, Plaintiff sued MSN in this district for infringement of the patents identified in MSN’s Notice Letter. *See* Civil Action No. 3:24-cv-04325-MAS-JBD, ECF No. 1. That case is currently pending and has been consolidated with Civil Action No. 3:24-cv-04264. ECF No. 22.

4. On August 29, 2024, Plaintiff sued MSN in this district for infringement of U.S. Patent Nos. 11,980,617 (“the ’617 patent”) and 12,070,459 (“the ’459 patent”). *See* Civil Action No. 3:24-cv-08854-MAS-JBD, ECF No. 1. That case is currently pending and has been consolidated with Civil Action No. 3:24-cv-04264. ECF No. 65.

The Parties

5. Plaintiff incorporates each of the preceding paragraphs as if fully set forth herein.

6. Plaintiff Intra-Cellular Therapies (“ITCI”) is a corporation organized and existing under the laws of Delaware and having a place of business at 135 Route 202/206, Suite 6, Bedminster, NJ 07921. ITCI is the holder of New Drug Application (“NDA”) No. 209500 for the manufacture and sale of lumateperone capsules, 10.5 mg, 21 mg, and 42 mg, which have been approved by the FDA.

7. Upon information and belief, Defendant MSN Laboratories Private Ltd. is a corporation organized and existing under the laws of the Republic of India and having a principal place of business at MSN House, Plot No. C 24, Sanath Nagar Industrial Estate, Sanathnagar, Hyderabad, Telangana, India, 500018.

8. Upon information and belief, MSN is in the business of, among other things, importing, manufacturing, and selling generic versions of branded pharmaceutical products for the U.S. market. Upon information and belief, MSN knows and intends that upon approval of MSN’s ANDA, MSN will manufacture MSN’s ANDA Product and MSN will directly or indirectly market, sell, and distribute MSN’s ANDA Product throughout the United States, including in New Jersey.

Jurisdiction

9. Plaintiff incorporates each of the preceding paragraphs as if fully set forth herein.

10. Jurisdiction is proper in this Court pursuant to 28 U.S.C. §§ 1331, 1338(a), and 2201 and 2202.

11. Based on the facts and causes alleged herein, and for additional reasons to be further developed through discovery if necessary, this Court has personal jurisdiction over MSN.

12. Upon information and belief, MSN is in the business of, among other things, developing, manufacturing, obtaining regulatory approval, marketing, selling, and distributing generic versions of branded pharmaceutical products throughout the United States, including in New Jersey, through its own actions and/or through the actions of its agents and subsidiaries, from which MSN derives a substantial portion of its revenue.

13. Upon information and belief, MSN, through its own actions and/or through the actions of its agents and subsidiaries, has engaged in the research and development, and the preparation and filing, of MSN's ANDA; continues to engage in seeking FDA approval of MSN's ANDA; intends to engage in the commercial manufacture, marketing, offer for sale, sale, or importation of MSN's ANDA Product throughout the United States, including in New Jersey; and stands to benefit from the approval of MSN's ANDA.

14. Upon information and belief, MSN, through its own actions and/or through the actions of its agents and subsidiaries, prepared and submitted MSN's ANDA with certifications pursuant to 21 U.S.C. § 355(j)(2)(A)(vii)(IV) ("Paragraph IV certifications").

15. Upon information and belief, upon FDA approval of MSN's ANDA, MSN will market, offer to sell, sell, or distribute MSN's ANDA Product throughout the United States, including in New Jersey, consistently with MSN's practices for the marketing and distribution of other generic pharmaceutical products. Upon information and belief, MSN regularly does business in New Jersey, and its practices with other generic pharmaceutical products have involved placing those products into the stream of commerce for distribution throughout the United States, including

in New Jersey. Upon information and belief, MSN's generic pharmaceutical products are used and/or consumed within and throughout the United States, including in New Jersey. Upon information and belief, MSN's ANDA Product will be prescribed by physicians practicing in New Jersey, dispensed by pharmacies located within New Jersey, and/or used by patients in New Jersey. Each of these activities would have a substantial effect within New Jersey and would constitute infringement of the Patents-in-Suit in the event that MSN's ANDA Product is approved before the Patents-in-Suit expire.

16. Upon information and belief, MSN derives substantial revenue from generic pharmaceutical products that are used and/or consumed within New Jersey, and which are manufactured by MSN and/or for which MSN is the named applicant on approved ANDAs. Upon information and belief, various products for which MSN is the named applicant on approved ANDAs are available at retail pharmacies in New Jersey.

17. MSN is subject to personal jurisdiction in New Jersey because, among other things, it has purposely availed itself of the benefits and protections of New Jersey's laws such that it should reasonably anticipate being haled into court here. Upon information and belief, MSN develops, manufactures, imports, markets, offers to sell, and/or sells generic drugs throughout the United States, including in New Jersey, and therefore transacts business within New Jersey, and/or has engaged in systematic and continuous business contacts within the State of New Jersey.

18. This Court also has personal jurisdiction over MSN because, among other things, upon information and belief: (1) MSN filed MSN's ANDA for the purpose of seeking approval to engage in the commercial manufacture, use, offer for sale, sale, and/or importation of MSN's ANDA Product in the United States, including in New Jersey; and (2) upon approval of MSN's ANDA, MSN will directly, or indirectly through subsidiaries, intermediaries, distributors, retailers, or others, market, distribute, offer for sale, sell, and/or import MSN's ANDA Product in

the United States, including in New Jersey, and will derive substantial revenue from the use or consumption of MSN's ANDA Product in New Jersey. Upon information and belief, upon approval of MSN's ANDA, MSN's ANDA Product will, among other things, be marketed, distributed, offered for sale, sold, and/or imported in New Jersey; prescribed by physicians practicing in New Jersey; dispensed by pharmacies located within New Jersey; and/or used by patients in New Jersey, all of which would have a substantial effect on New Jersey.

19. This Court also has personal jurisdiction over MSN because MSN has committed, or aided, abetted, contributed to, and/or participated in the commission of, acts of patent infringement that will lead to foreseeable harm and injury to Plaintiff, which manufactures CAPLYTA® drug products for sale and use throughout the United States, including in New Jersey. As a result, the consequences of MSN's actions were, and will be, suffered in New Jersey. MSN knew or should have known that the consequences of its actions were, and will be, suffered in New Jersey. It was reasonably foreseeable that MSN would be sued in New Jersey. Upon information and belief, MSN's actions will injure Plaintiff by displacing at least some, if not all, of Plaintiff's sales of CAPLYTA® drug products in New Jersey, as well as resulting in price erosion and loss of goodwill with the purchasers and distributors of CAPLYTA® drug products in New Jersey.

20. MSN is also subject to personal jurisdiction in New Jersey because it (1) engages in patent litigation concerning MSN's generic versions of branded pharmaceutical products in this District, (2) does not contest personal jurisdiction in this District, and (3) purposefully avails itself of the rights and benefits of this Court by asserting claims and/or counterclaims in this District. *See, e.g., Intra-Cellular Therapies, Inc. v. MSN Labs. Private Ltd.*, No. 3-24-cv-04325, ECF No. 9 (D.N.J. June 3, 2024); *Intra-Cellular Therapies, Inc. v. Aurobindo Pharma Ltd.*, No. 3-24-cv-04264, ECF No. 71, (D.N.J. Oct. 29, 2024); *Jazz Pharms. Rsch. UK Ltd. v. Teva Pharms., Inc.*,

No. 23-cv-03914, ECF No. 40 (D.N.J. Sept. 21, 2023); *Jazz Pharms. Rsch. UK Ltd. v. Teva Pharms., Inc.*, No. 23-cv-00018, ECF No. 95 (D.N.J. Mar. 17, 2023).

21. For the above reasons, it would not be unfair or unreasonable for MSN to litigate this action in this District, and the Court has personal jurisdiction over MSN.

Venue

22. Plaintiff incorporates each of the preceding paragraphs as if fully set forth herein.

23. Venue is proper in this district as to MSN Laboratories Private Ltd. pursuant to 28 U.S.C. §§ 1391 and/or 1400(b) because, *inter alia*, MSN Laboratories Private Ltd. is a company organized and existing under the laws of the Republic of India and is subject to personal jurisdiction in this judicial district.

Factual Background

24. Plaintiff incorporates each of the preceding paragraphs as if fully set forth herein.

25. CAPLYTA®, which contains lumateperone, is approved for the treatment of schizophrenia in adults, as well as depressive episodes associated with bipolar I or II disorder (bipolar depression) in adults, as monotherapy and as adjunctive therapy with lithium or valproate.

26. In MSN's Notice Letter, MSN stated that the subject of MSN's ANDA is lumateperone capsules, 10.5 mg, 21 mg, and 42 mg. In MSN's Notice Letter, MSN stated that MSN's ANDA was submitted under 21 U.S.C. § 355(j)(1) & (2)(a) and contended that MSN's ANDA contains bioavailability and/or bioequivalence studies for MSN's ANDA Product. Upon information and belief, MSN's ANDA Product is a generic version of CAPLYTA®.

27. In MSN's Notice Letter, MSN stated that it had submitted Paragraph IV certifications to the FDA alleging that the '227 patent, '345 patent, '009 patent, '951 patent, '084 patent, '842 patent, '419 patent, '348 patent, and RE '839 patent are invalid, unenforceable, and/or not infringed, and that MSN is seeking approval to engage in the commercial manufacture, use,

sale, offer for sale, and/or importation of MSN's ANDA Product prior to the expiration of those patents.

28. The purpose of MSN's submission of MSN's ANDA was to obtain, *inter alia*, approval under the Federal Food, Drug, and Cosmetic Act (the "FDCA") to engage in the commercial manufacture, use, offer for sale, sale, and/or importation of MSN's ANDA Product prior to the expiration of the '227 patent, '345 patent, '009 patent, '951 patent, '084 patent, '842 patent, '419 patent, '348 patent, and RE '839 patent. On information and belief, MSN intends to seek approval to engage in the commercial manufacture, use, sale, offer for sale, and/or importation of MSN's ANDA Product prior to the expiration of the Patents-in-Suit.

COUNT I—INFRINGEMENT OF THE '155 PATENT

29. Plaintiff incorporates each of the preceding paragraphs as if fully set forth herein.

30. The '155 patent, entitled "Methods" (attached as Exhibit A), was duly and legally issued on September 17, 2024.

31. The inventors named on the '155 patent are Sharon Mates, Robert Davis and Kimberly Vanover.

32. Plaintiff is the owner and assignee of the '155 patent.

33. CAPLYTA® is covered by one or more claims of the '155 patent, which is listed in connection with CAPLYTA® in the FDA's publication *Approved Drug Products with Therapeutic Equivalence Evaluations* (commonly known as "the Orange Book").

34. In MSN's Notice Letter, MSN notified Plaintiff of the submission of MSN's ANDA to the FDA. The purpose of this submission was to engage in the commercial manufacture, use, offer for sale, sale, and/or importation of MSN's ANDA Product prior to the expiration of the '227 patent, '345 patent, '009 patent, '951 patent, '084 patent, '842 patent, '419 patent, '348 patent, and RE '839 patent. On information and belief, MSN intends to seek approval to engage in the

commercial manufacture, use, sale, offer for sale, and/or importation of MSN's ANDA Product prior to the expiration of the '155 patent.

35. According to MSN's Notice Letter, MSN's ANDA Product contains lumateperone.

36. Upon information and belief, the use of MSN's ANDA Product in accordance with and as directed by MSN's proposed labeling for that product would infringe one or more claims of the '155 patent.

37. As an example, claim 1 of the '155 patent recites:

A method for the treatment of a major depressive episode associated with Bipolar II Disorder, comprising administering to a patient in need thereof, a therapeutically effective amount of lumateperone in mono-tosylate salt form, wherein the method comprises once daily administration of a tablet or capsule comprising about 60 mg of lumateperone mono-tosylate in combination or association with a pharmaceutically acceptable diluent or carrier.

38. As a further example, claim 22 of the '155 patent recites:

A method for the treatment of a depressive episode associated with Bipolar II Disorder, comprising administering to a patient in need thereof, a therapeutically effective amount of lumateperone in mono-tosylate salt form, wherein the method comprises once daily administration of a tablet or capsule comprising about 60 mg of lumateperone monotosylate in combination or association with a pharmaceutically acceptable diluent or carrier.

39. Upon information and belief, the use of MSN's ANDA Product in accordance with and as directed by MSN's proposed label would involve treating a major depressive episode

associated with Bipolar II Disorder, including by administering to a patient in need thereof a capsule comprising a therapeutically effective amount and about 60 mg of lumateperone mono-tosylate in combination or association with a pharmaceutically acceptable diluent or carrier, as recited in claim 1.

40. Upon information and belief, the use of MSN's ANDA Product in accordance with and as directed by MSN's proposed label would involve treating a depressive episode associated with Bipolar II Disorder, including by administering to a patient in need thereof a capsule comprising about a therapeutically effective amount and 60 mg of lumateperone mono-tosylate in combination or association with a pharmaceutically acceptable diluent or carrier, as recited in claim 22.

41. Upon information and belief, the use of MSN's ANDA Product in accordance with and as directed by MSN's proposed product labeling would infringe one or more claims of the '155 patent, literally or under the doctrine of equivalents.

42. MSN's submission of MSN's ANDA for the purpose of obtaining approval to engage in the commercial manufacture, use, offer for sale, sale, and/or importation of MSN's ANDA Product before the expiration of the '155 patent was an act of infringement of the '155 patent under 35 U.S.C. § 271(e)(2)(A).

43. Upon information and belief, MSN will engage in the manufacture, use, offer for sale, sale, marketing, distribution, and/or importation of MSN's ANDA Product immediately and imminently upon approval of its ANDA.

44. Upon information and belief, the manufacture, use, sale, offer for sale, or importation of MSN's ANDA Product would infringe, literally and/or under the doctrine of equivalents, one or more claims of the '155 patent.

45. Upon information and belief, the manufacture, use, sale, offer for sale, or importation of MSN's ANDA Product in accordance with and as directed by its proposed product labeling would infringe one or more claims of the '155 patent.

46. Upon information and belief, MSN plans and intends to, and will, actively induce infringement of the '155 patent when MSN's ANDA is approved, and plans and intends to, and will, do so immediately and imminently upon approval. MSN's activities will be done with knowledge of the '155 patent and specific intent to infringe that patent.

47. Upon information and belief, MSN knows that MSN's ANDA Product and its proposed labeling are especially made or adapted for use in infringing the '155 patent, that MSN's ANDA Product is not a staple article or commodity of commerce, and that MSN's ANDA Product and its proposed labeling are not suitable for substantial noninfringing use. Upon information and belief, MSN plans and intends to, and will, contribute to infringement of the '155 patent immediately and imminently upon approval of MSN's ANDA.

48. Notwithstanding MSN's knowledge of the claims of the '155 patent, MSN has continued to assert its intent to manufacture, offer for sale, sell, distribute, and/or import MSN's ANDA Product with its product labeling following FDA approval of MSN's ANDA prior to the expiration of the '155 patent.

49. The foregoing actions by MSN constitute and/or will constitute infringement of the '155 patent; active inducement of infringement of the '155 patent; and/or contribution to the infringement by others of the '155 patent.

50. Upon information and belief, MSN has acted with full knowledge of the '155 patent and without a reasonable basis for believing that it would not be liable for infringement of the '155 patent; active inducement of infringement of the '155 patent; and/or contribution to the infringement by others of the '155 patent.

51. Plaintiff will be substantially and irreparably damaged by infringement of the '155 patent.

52. Unless MSN is enjoined from infringing the '155 patent, actively inducing infringement of the '155 patent, and contributing to the infringement by others of the '155 patent, Plaintiff will suffer irreparable injury. Plaintiff has no adequate remedy at law.

COUNT II—DECLARATORY JUDGMENT OF INFRINGEMENT OF THE '155 PATENT

53. Plaintiff incorporates each of the preceding paragraphs as if fully set forth herein.

54. The Court may declare the rights and legal relations of the parties pursuant to 28 U.S.C. §§ 2201 and 2202 because there is a case of actual controversy between Plaintiff on the one hand and MSN on the other regarding MSN's infringement, active inducement of infringement, contribution to the infringement by others of the '155 patent, and/or the validity of the '155 patent.

55. The Court should declare that the commercial manufacture, use, sale, offer for sale, and/or importation of MSN's ANDA Product with its proposed labeling, or any other MSN drug product that is covered by or whose use is covered by the '155 patent, will infringe, induce infringement of, and contribute to the infringement by others of the '155 patent, and that the claims of the '155 patent are not invalid.

COUNT III—INFRINGEMENT OF THE '792 PATENT

56. Plaintiff incorporates each of the preceding paragraphs as if fully set forth herein.

57. The '792 patent, entitled "Pharmaceutical Compositions Comprising 4-((6bR,10aS)-3-methyl-2,3,6b,9,10,10a-hexahydro-1H-pyrido[3',4':4,5]pyrrolo[1,2,3-de]quinoxalin-8(7H)-yl)-1-(4-((6bR,10aS)-3-methyl-2,3,6b,9,10,10a-hexahydro-1H-pyrido[3',4':4,5]pyrrolo[1,2,3-de]quinoxalin-8(7H)-yl)phenyl)butan-1-one for Treating

Conditions of the Central Nervous System and Cardiac Disorders” (attached as Exhibit B), was duly and legally issued on October 22, 2024.

58. The inventors named on the ’792 patent are Peng Li, Robert Davis, and Kimberly Vanover.

59. Plaintiff is the owner and assignee of the ’792 patent.

60. CAPLYTA® is covered by one or more claims of the ’792 patent, which will be listed in connection with CAPLYTA® in the Orange Book.

61. In MSN’s Notice Letter, MSN notified Plaintiff of the submission of MSN’s ANDA to the FDA. The purpose of this submission was to engage in the commercial manufacture, use, offer for sale, sale, and/or importation of MSN’s ANDA Product prior to the expiration of the ’227 patent, ’345 patent, ’009 patent, ’951 patent, ’084 patent, ’842 patent, ’419 patent, ’348 patent, and RE ’839 patent. On information and belief, MSN intends to seek approval to engage in the commercial manufacture, use, sale, offer for sale, and/or importation of MSN’s ANDA Product prior to the expiration of the ’792 patent.

62. According to MSN’s Notice Letter, MSN’s ANDA Product contains lumateperone.

63. Upon information and belief, the use of MSN’s ANDA Product in accordance with and as directed by MSN’s proposed labeling for that product would infringe one or more claims of the ’792 patent.

64. As an example, claim 1 of the ’792 patent recites:

A pharmaceutical composition comprising a pharmaceutically acceptable diluent or carrier in admixture with:

(i) a compound of Formula I:

Formula I

in free base or pharmaceutically acceptable salt form; and

(ii) a compound of Formula II:

Formula II

in free base or pharmaceutically acceptable salt form.

65. As an example, claim 29 of the '792 patent recites:

A pharmaceutical composition comprising:

1) a compound of Formula I:

Formula I

in free base or pharmaceutically acceptable salt form; and

(ii) a compound of Formula II:

in toluenesulfonic acid addition salt form;

wherein the pharmaceutical composition comprises the compound of Formula I and the compound of Formula II in a weight ratio in the range of from 1:200 to 1:2000.

66. Upon information and belief, MSN's ANDA Product is a pharmaceutical composition comprising a pharmaceutically acceptable diluent or carrier in admixture with a compound of Formula I in free base or pharmaceutically acceptable salt form and a compound of Formula II in free base or pharmaceutically acceptable salt form, as recited in claim 1.

67. Upon information and belief, MSN's ANDA Product is a pharmaceutical composition comprising a compound of Formula I in free base or pharmaceutically acceptable salt form and a compound of Formula II in toluenesulfonic acid addition salt form in a weight ratio between 1:200 to 1:2000, as recited in claim 29.

68. Upon information and belief, MSN's ANDA Product infringes one or more claims of the '792 patent, literally or under the doctrine of equivalents.

69. MSN's submission of MSN's ANDA for the purpose of obtaining approval to engage in the commercial manufacture, use, offer for sale, sale, and/or importation of MSN's

ANDA Product before the expiration of the '792 patent was an act of infringement of the '792 patent under 35 U.S.C. § 271(e)(2)(A).

70. Upon information and belief, MSN will engage in the manufacture, use, offer for sale, sale, marketing, distribution, and/or importation of MSN's ANDA Product immediately and imminently upon approval of its ANDA.

71. Upon information and belief, the manufacture, use, sale, offer for sale, or importation of MSN's ANDA Product would infringe, literally and/or under the doctrine of equivalents, one or more claims of the '792 patent.

72. Upon information and belief, the manufacture, use, sale, offer for sale, or importation of MSN's ANDA Product in accordance with and as directed by its proposed product labeling would infringe one or more claims of the '792 patent.

73. Upon information and belief, MSN plans and intends to, and will, actively induce infringement of the '792 patent when MSN's ANDA is approved, and plans and intends to, and will, do so immediately and imminently upon approval. MSN's activities will be done with knowledge of the '792 patent and specific intent to infringe that patent.

74. Upon information and belief, MSN knows that MSN's ANDA Product and its proposed labeling are especially made or adapted for use in infringing the '792 patent, that MSN's ANDA Product is not a staple article or commodity of commerce, and that MSN's ANDA Product and its proposed labeling are not suitable for substantial noninfringing use. Upon information and belief, MSN plans and intends to, and will, contribute to infringement of the '792 patent immediately and imminently upon approval of MSN's ANDA.

75. Notwithstanding MSN's knowledge of the claims of the '792 patent, MSN has continued to assert its intent to manufacture, offer for sale, sell, distribute, and/or import MSN's

ANDA Product with its product labeling following FDA approval of MSN's ANDA prior to the expiration of the '792 patent.

76. The foregoing actions by MSN constitute and/or will constitute infringement of the '792 patent; active inducement of infringement of the '792 patent; and/or contribution to the infringement by others of the '792 patent.

77. Upon information and belief, MSN has acted with full knowledge of the '792 patent and without a reasonable basis for believing that it would not be liable for infringement of the '792 patent; active inducement of infringement of the '792 patent; and/or contribution to the infringement by others of the '792 patent.

78. Plaintiff will be substantially and irreparably damaged by infringement of the '792 patent.

79. Unless MSN is enjoined from infringing the '792 patent, actively inducing infringement of the '792 patent, and contributing to the infringement by others of the '792 patent, Plaintiff will suffer irreparable injury. Plaintiff has no adequate remedy at law.

**COUNT IV—DECLARATORY JUDGMENT OF INFRINGEMENT OF THE '792
PATENT**

80. Plaintiff incorporates each of the preceding paragraphs as if fully set forth herein.

81. The Court may declare the rights and legal relations of the parties pursuant to 28 U.S.C. §§ 2201 and 2202 because there is a case of actual controversy between Plaintiff on the one hand and MSN on the other regarding MSN's infringement, active inducement of infringement, contribution to the infringement by others of the '792 patent, and/or the validity of the '792 patent.

82. The Court should declare that the commercial manufacture, use, sale, offer for sale, and/or importation of MSN's ANDA Product with its proposed labeling, or any other MSN drug product that is covered by or whose use is covered by the '792 patent, will infringe, induce

infringement of, and contribute to the infringement by others of the '792 patent, and that the claims of the '792 patent are not invalid.

COUNT V—INFRINGEMENT OF THE '043 PATENT

83. Plaintiff incorporates each of the preceding paragraphs as if fully set forth herein.

84. The '043 patent, entitled "Pharmaceutical Capsules Comprising Lumateperone Mono-Tosylate" (attached as Exhibit C), was duly and legally issued on October 29, 2024.

85. The inventors named on the '043 patent are Robert Davis and Peng Li.

86. Plaintiff is the owner and assignee of the '043 patent.

87. CAPLYTA® is covered by one or more claims of the '043 patent, which will be listed in connection with CAPLYTA® in the Orange Book.

88. In MSN's Notice Letter, MSN notified Plaintiff of the submission of MSN's ANDA to the FDA. The purpose of this submission was to engage in the commercial manufacture, use, offer for sale, sale, and/or importation of MSN's ANDA Product prior to the expiration of the '227 patent, '345 patent, '009 patent, '951 patent, '084 patent, '842 patent, '419 patent, '348 patent, and RE '839 patent. On information and belief, MSN intends to seek approval to engage in the commercial manufacture, use, sale, offer for sale, and/or importation of MSN's ANDA Product prior to the expiration of the '043 patent.

89. According to MSN's Notice Letter, MSN's ANDA Product contains lumateperone.

90. Upon information and belief, the use of MSN's ANDA Product in accordance with and as directed by MSN's proposed labeling for that product would infringe one or more claims of the '043 patent.

91. As an example, claim 1 of the '043 patent recites:

A pharmaceutical capsule for oral administration, comprising
lumateperone:

in mono-tosylate salt form, wherein the lumateperone mono-tosylate is in solid crystal form; wherein the capsule comprises the lumateperone mono-tosylate in an amount equivalent to 35 to 45 mg lumateperone free base, and wherein the capsule comprises a blend of 10 to 30% by weight of lumateperone mono-tosylate in solid crystal form, and one or more pharmaceutically acceptable diluents or carriers, wherein the one or more pharmaceutically acceptable diluents or carriers comprises one or more of (a) diluent/filler, (b) binder, (c) disintegrant, (d) lubricant, or (e) glidant, and wherein

a single pharmaceutical capsule dissolves in 500 mL of 0.1N aqueous hydrochloric acid to the extent of at least 85% after 15 minutes, and/or to the extent of at least 92% after 30 minutes, and/or to the extent of at least 94% after 45 minutes.

92. Upon information and belief, MSN's ANDA Product is a pharmaceutical capsule for oral administration comprising lumateperone mono-tosylate in solid crystal form in a blend with one or more of the specific diluents or carriers in the specific amounts recited in claim 1. Upon information and belief, a single capsule of MSN's ANDA Product dissolves in 500 mL of 0.1N aqueous hydrochloric acid according to one or more of the parameters recited in claim 1.

93. Upon information and belief, MSN's ANDA Product infringes one or more claims of the '043 patent, literally or under the doctrine of equivalents.

94. MSN's submission of MSN's ANDA for the purpose of obtaining approval to engage in the commercial manufacture, use, offer for sale, sale, and/or importation of MSN's ANDA Product before the expiration of the '043 patent was an act of infringement of the '043 patent under 35 U.S.C. § 271(e)(2)(A).

95. Upon information and belief, MSN will engage in the manufacture, use, offer for sale, sale, marketing, distribution, and/or importation of MSN's ANDA Product immediately and imminently upon approval of its ANDA.

96. Upon information and belief, the manufacture, use, sale, offer for sale, or importation of MSN's ANDA Product would infringe, literally and/or under the doctrine of equivalents, one or more claims of the '043 patent.

97. Upon information and belief, the manufacture, use, sale, offer for sale, or importation of MSN's ANDA Product in accordance with and as directed by its proposed product labeling would infringe one or more claims of the '043 patent.

98. Upon information and belief, MSN plans and intends to, and will, actively induce infringement of the '043 patent when MSN's ANDA is approved, and plans and intends to, and will, do so immediately and imminently upon approval. MSN's activities will be done with knowledge of the '043 patent and specific intent to infringe that patent.

99. Upon information and belief, MSN knows that MSN's ANDA Product and its proposed labeling are especially made or adapted for use in infringing the '043 patent, that MSN's ANDA Product is not a staple article or commodity of commerce, and that MSN's ANDA Product and its proposed labeling are not suitable for substantial noninfringing use. Upon information and

belief, MSN plans and intends to, and will, contribute to infringement of the '043 patent immediately and imminently upon approval of MSN's ANDA.

100. Notwithstanding MSN's knowledge of the claims of the '043 patent, MSN has continued to assert its intent to manufacture, offer for sale, sell, distribute, and/or import MSN's ANDA Product with its product labeling following FDA approval of MSN's ANDA prior to the expiration of the '043 patent.

101. The foregoing actions by MSN constitute and/or will constitute infringement of the '043 patent; active inducement of infringement of the '043 patent; and/or contribution to the infringement by others of the '043 patent.

102. Upon information and belief, MSN has acted with full knowledge of the '043 patent and without a reasonable basis for believing that it would not be liable for infringement of the '043 patent; active inducement of infringement of the '043 patent; and/or contribution to the infringement by others of the '043 patent.

103. Plaintiff will be substantially and irreparably damaged by infringement of the '043 patent.

104. Unless MSN is enjoined from infringing the '043 patent, actively inducing infringement of the '043 patent, and contributing to the infringement by others of the '043 patent, Plaintiff will suffer irreparable injury. Plaintiff has no adequate remedy at law.

**COUNT VI—DECLARATORY JUDGMENT OF INFRINGEMENT OF THE '043
PATENT**

105. Plaintiff incorporates each of the preceding paragraphs as if fully set forth herein.

106. The Court may declare the rights and legal relations of the parties pursuant to 28 U.S.C. §§ 2201 and 2202 because there is a case of actual controversy between Plaintiff on the one hand and MSN on the other regarding MSN's infringement, active inducement of

infringement, contribution to the infringement by others of the '043 patent, and/or the validity of the '043 patent.

107. The Court should declare that the commercial manufacture, use, sale, offer for sale, and/or importation of MSN's ANDA Product with its proposed labeling, or any other MSN drug product that is covered by or whose use is covered by the '043 patent, will infringe, induce infringement of, and contribute to the infringement by others of the '043 patent, and that the claims of the '043 patent are not invalid.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff requests the following relief:

- (a) A judgment that the Patents-in-Suit have been infringed under 35 U.S.C. § 271(e)(2) by MSN's submission to the FDA of MSN's ANDA;
- (b) A judgment ordering that the effective date of any FDA approval of commercial manufacture, use, or sale of MSN's ANDA Product, or any other drug product that infringes or the use of which infringes the Patents-in-Suit, be not earlier than the expiration dates of said patents, inclusive of any extension(s) and additional period(s) of exclusivity;
- (c) A preliminary and permanent injunction enjoining MSN, and all persons acting in concert with MSN, from the commercial manufacture, use, sale, offer for sale, or importation into the United States of MSN's ANDA Product, or any other drug product covered by or whose use is covered by the Patents-in-Suit, prior to the expiration of said patents, inclusive of any extension(s) and additional period(s) of exclusivity;
- (d) A judgment declaring that the commercial manufacture, use, sale, offer for sale, or importation of MSN's ANDA Product, or any other drug product covered by or

whose use is covered by the Patents-in-Suit, prior to the expiration of said patents, will infringe, induce the infringement of, and contribute to infringement by others of said patents;

- (e) A declaration that this is an exceptional case and an award of attorneys' fees pursuant to 35 U.S.C. § 285;
- (f) Costs and expenses in this action; and
- (g) Such further and other relief as this Court may deem just and proper.
