### **JURISDICTION AND VENUE**

9. This action arises under the patent laws of the United States, Title 35, United States Code. The Court has subject matter jurisdiction over this action pursuant to the provisions of 28 U.S.C. §§ 1331, 1338(a), 2201, and 2202.

10. This Court has personal jurisdiction over Macleods by virtue of the fact, *inter alia*, that Macleods has committed a tortious act of patent infringement that has led and/or will lead to foreseeable harm and injury to Pfizer throughout the United States, including in the State of Delaware. In particular, this suit arises out of Macleods' filing of ANDA No. 219530 seeking FDA approval to sell Macleods Generic Tofacitinib Tablets prior to the expiration of the RE'783 patent throughout the United States, including in Delaware.

11. On information and belief, if ANDA No. 219530 is approved, Macleods Generic Tofacitinib Tablets will, among other things, be marketed and distributed by Macleods in Delaware, prescribed by physicians practicing in Delaware, dispensed by pharmacies located in Delaware, and/or used by patients in Delaware.

12. Macleods' infringing activities with respect to its filing of ANDA No. 219530 and its intent to commercialize and sell Macleods Generic Tofacitinib Tablets prior to the expiration of the RE'783 patent have led and/or will lead to foreseeable harm and injury to Plaintiffs, including Pfizer Inc., which is incorporated in Delaware.

13. In the alternative, this Court has personal jurisdiction over Macleods under Federal Rule of Civil Procedure 4(k)(2). Macleods has contacts with the United States by virtue, *inter alia*, of its filing ANDA No. 219530 with the FDA.

14. Venue is proper in this judicial district pursuant to 28 U.S.C. § 1391. As a foreign corporation, Macleods may be sued in any judicial district pursuant to 28 U.S.C. § 1391(c)(3).

## **BACKGROUND**

### **Xeljanz**

15. The active ingredient in Pfizer's Xeljanz product is tofacitinib citrate. Xeljanz contains tofacitinib citrate in an amount equivalent to either 5 mg or 10 mg of tofacitinib base in tablets formulated for twice-daily administration.

16. The FDA-approved Prescribing Information for Xeljanz states that tofacitinib citrate has the following chemical name: (3R,4R)-4-methyl-3-(methyl-7H-pyrrolo [2,3-d] pyrimidin-4-ylamino)- $\beta$ -oxo-1-piperidinepropanenitrile, 2-hydroxy-1,2,3-propanetricarboxylate (1:1).

17. Tofacitinib citrate is an inhibitor of Janus kinases and is indicated, *inter alia*, for the treatment of adult patients with moderately to severely active rheumatoid arthritis who have had an inadequate response or intolerance to one or more Tumor Necrosis Factor ("TNF") blockers, for the treatment of adult patients with active psoriatic arthritis who have had an inadequate response or intolerance to TNF blockers, for the treatment of adult patients with active ankylosing spondylitis who have had an inadequate response or intolerance to one or more TNF blockers, and for the treatment of adult patients with moderately to severely active ulcerative colitis who have an inadequate response or who are intolerant to TNF blockers.

### **Orange Book Listing for Xeljanz**

18. PF PRISM C.V. holds approved New Drug Application ("NDA") No. 203214 for EQ 5 mg and 10 mg base tofacitinib citrate tablets, which Pfizer sells under the registered name Xeljanz. The Xeljanz tablets are approved for, *inter alia*, the treatment of rheumatoid arthritis, psoriatic arthritis, ankylosing spondylitis, and ulcerative colitis.

19. Pursuant to 21 U.S.C. § 355(b)(1) and the regulations the FDA has promulgated pursuant thereto, the RE'783 patent is listed in the FDA publication titled "Approved Drug Products with Therapeutic Equivalence Evaluations" (the "Orange Book") for the Xeljanz NDA.

20. The Orange Book lists the expiration date for the RE'783 patent as December 8, 2025, and states that NDA No. 203214 has exclusivity until June 8, 2026, because the FDA has granted Xeljanz pediatric exclusivity pursuant to § 505A of the Federal Food Drug & Cosmetic Act.

### **The RE'783 Patent**

21. On September 28, 2010, the United States Patent and Trademark Office ("USPTO") issued the RE'783 patent, titled "Pyrrolo[2,3- d]pyrimidine Compounds." The RE'783 patent is a reissue of U.S. Patent No. 6,627,754, which issued on September 30, 2003. The RE'783 patent is duly and legally assigned to Pfizer Inc. A copy of the RE'783 patent is attached hereto as Exhibit A.

22. On December 14, 2016, the USPTO issued a Notice of Final Determination extending the expiration date of the RE'783 patent to December 8, 2025.

23. C.P. Pharmaceuticals International C.V. is the exclusive licensee of the RE'783 patent.

24. C.P. Pharmaceuticals International C.V. conveyed rights under the RE'783 patent to Pfizer Pharmaceuticals LLC, PF PRISM C.V., and Pfizer PFE Ireland Pharmaceuticals Holding 1 B.V.

25. Pfizer Pharmaceuticals LLC has conveyed its rights to the RE'783 patent to PBG Puerto Rico LLC.

26. Pfizer PFE Ireland Pharmaceuticals Holding 1 B.V. has conveyed its rights to the RE'783 patent to PF PRISM IMB B.V.

**Macleods' ANDA**

27. By letter dated April 4, 2025 (the “Macleods Notice Letter”) and received by Pfizer on/around April 8, 2025, Macleods notified Pfizer that it had filed ANDA No. 219530 with the FDA, seeking approval under the Federal Food, Drug and Cosmetic Act to market and sell Macleods Generic Tofacitinib Tablets—generic copies of Xeljanz (tofacitinib citrate EQ 5 mg and 10 mg base tablets)—prior to the expiration of the RE’783 patent.

28. The Macleods Notice Letter describes the Macleods Generic Tofacitinib Tablets as “Tofacitinib Tablet (Tofacitinib Citrate); Oral Eq 5mg Base and 10mg Base.”

29. The Macleods Notice Letter states that Macleods has filed ANDA No. 219530 seeking to “engage in the commercial manufacture, use, sale, offer to sell, and/or importation in the United States” of Macleods Generic Tofacitinib Tablets prior to the expiration of the RE’783 patent.

30. The Macleods Notice Letter asserts that ANDA No. 219530 contains a “Paragraph IV” certification under 21 U.S.C. § 355(j) alleging that Macleods Generic Tofacitinib Tablets “will not infringe any valid or enforceable claims” of the RE’783 patent.

31. Attached to the Macleods Notice Letter was Macleods’ detailed statement asserting the purported factual and legal bases for Macleods’ contention that the claims of the RE’783 patent are invalid, unenforceable, and/or will not be infringed by the commercial manufacture, use, sale, or offer for sale in the United States or importation into the United States of Macleods Generic Tofacitinib Tablets.

32. Macleods’ detailed statement alleges that all claims of the RE’783 patent are invalid. Macleods’ detailed statement does not contain a noninfringement argument with respect to the RE’783 patent.

33. On information and belief, upon approval of ANDA No. 219530, Macleods will sell and distribute Macleods Generic Tofacitinib Tablets in the United States.

**CLAIM FOR RELIEF**

**COUNT I**

**(Infringement of the RE'783 Patent by Macleods Generic Tofacitinib Tablets)**

34. The allegations of paragraphs 1-33 above are repeated and re-alleged as if set forth fully herein.

35. Pursuant to 35 U.S.C. § 271(e)(2)(A), Macleods' filing of ANDA No. 219530 seeking approval to market and sell Macleods Generic Tofacitinib Tablets before the expiration of the RE'783 patent was an act of infringement of at least claim 4 of the RE'783 patent, entitling Pfizer to the relief provided by 35 U.S.C. § 271(e)(4), including, *inter alia*, an order of this Court that the effective date of approval for ANDA No. 219530 be a date which is not earlier than the expiration date of the RE'783 patent.

36. Macleods had knowledge of the RE'783 patent when it submitted ANDA No. 219530 to the FDA.

37. On information and belief, upon FDA approval of ANDA No 219530, Macleods intends to engage in the manufacture, use, offer for sale, sale, and/or importation of Macleods Generic Tofacitinib Tablets in the United States and will thereby directly infringe at least claim 4 of the RE'783 patent under 35 U.S.C. § 271(a).

38. The foregoing actions by Macleods constitute and/or would constitute infringement of at least claim 4 of the RE'783 patent.

39. An actual controversy exists relating to Macleods' threatened direct infringement of the RE'783 patent.

40. Pfizer will be substantially and irreparably harmed if Macleods is not enjoined from infringing the RE'783 patent. Pfizer has no adequate remedy at law.

**PRAYER FOR RELIEF**

WHEREFORE, Pfizer requests the following relief:

- A. A judgment that Macleods' submission of ANDA No. 219530 was an act of infringement and that Macleods' making, using, offering to sell, selling, or importing Macleods Generic Tofacitinib Tablets in the United States prior to the expiration of the RE'783 patent will directly infringe that patent;
- B. A judgment that the effective date of any FDA approval for Macleods to make, use, offer for sale, sell, market, distribute, or import Macleods Generic Tofacitinib Tablets into the United States be no earlier than the date on which the RE'783 patent expires, or the later expiration of any exclusivity to which Pfizer is or becomes entitled;
- C. A permanent injunction enjoining Macleods, its officers, agents, servants, and employees, and those persons in active concert or participation with any of them, from making, using, selling, offering for sale, marketing, distributing, or importing Macleods Generic Tofacitinib Tablets into the United States, and from inducing or contributing to any of the foregoing, prior to the expiration of the RE'783 patent, or the later expiration of any exclusivity to which Pfizer is or becomes entitled;
- D. A judgment that this case is an exceptional case under 35 U.S.C. § 285, entitling Pfizer to an award of its reasonable attorneys' fees for bringing and prosecuting this action;
- E. An award of Pfizer's costs and expenses in this action; and
- F. Such further and additional relief as this Court deems just and proper.
