FACTUAL BACKGROUND

A. *FDA Approval of New Brand Name Drugs.*

7. The Federal Food, Drug, and Cosmetic Act (“FFDCA”), 21 U.S.C. § 301, *et seq.*, as amended by the Hatch-Waxman Amendments, sets forth the rules that the Food and Drug Administration (“FDA”) follows when considering whether to approve the marketing of both brand-name and generic drugs.

8. Under the FFDCA, an applicant seeking to market a new brand-name drug must prepare a New Drug Application (“NDA”) for consideration by the FDA. *See* 21 U.S.C. § 355.

9. An NDA must include, among other things, the number of any patent that allegedly claims the “drug” or a “method of using [the] drug” for which the NDA was submitted and for which a claim of patent infringement could reasonably be asserted against an unauthorized party.

See 21 U.S.C. § 355(b)(1), (c)(2); 21 C.F.R. § 314.53(b)(1), (c)(2).

10. Upon approval of the NDA, the FDA publishes patent information for the approved drug in “Approved Drug Products with Therapeutic Equivalence Evaluations,” commonly known as the “Orange Book.” *See 21 C.F.R. § 314.53(e).*

11. The FDA’s duties with respect to the Orange Book listings are purely ministerial. If the NDA-holder submits a patent to the FDA for listing in the Orange Book, the patent is listed in the Orange Book. *See 21 U.S.C. § 355(b)(1); 21 C.F.R. § 314.53(e)-(f).* The FDA does not substantively review the submitted patent information to ensure that it is accurate or that the NDA holder properly submitted it in connection with the NDA drug (or “reference listed drug”), but instead relies on the NDA holder to properly list the patents.

B. *FDA Approval of New Generic Drugs.*

12. In 1984, Congress enacted the Drug Price Competition and Patent Term Restoration Act, also known as the Hatch-Waxman Amendments, to the FFDCA. *See Pub. L. No. 98-417, 98 Stat. 1585 (1984) (codified at 21 U.S.C. § 355 and 35 U.S.C. §§ 156, 271(e)).* Congress passed the Hatch-Waxman Amendments, which simplified the procedure for obtaining approval of generic drugs, for the purpose of decreasing the cost of pharmaceuticals through increased competition.

13. Under the Hatch-Waxman Amendments, a generic manufacturer submits to the FDA what is called an Abbreviated New Drug Application (“ANDA”).

14. Among other things, an ANDA must also contain a “certification” to each patent that the NDA holder has submitted to the FDA for listing in the Orange Book in connection with the reference listed drug. *See* 21 U.S.C. § 355(j)(2)(A)(vii); 21 C.F.R. § 314.94(a)(12).

15. A “Paragraph IV” certification asserts that the listed patent is invalid, unenforceable, and/or will not be infringed and, on that basis, the applicant seeks FDA approval of the generic product prior to patent expiration. *See* 21 U.S.C. § 355(j)(2)(A)(vii)(IV); *see also* 21 C.F.R. § 314.94(a)(12)(i)(A)(4).

16. An applicant submitting an ANDA containing a Paragraph IV certification must notify both the patent holder and NDA holder of each of its Paragraph IV certifications. *See* 21 U.S.C. § 355(j)(2)(B).

17. Upon receiving notice of the Paragraph IV certifications, the patent holder has 45 days in which to file an infringement suit against the generic manufacturer. *See* 21 U.S.C. § 355(j)(5)(B)(iii); 35 U.S.C. § 271(e)(2)(A).

18. Patent holders have a significant strategic incentive to file suit within 45 days of receiving notice of the Paragraph IV certifications because doing so, regardless of merit, automatically prevents the FDA from approving the generic maker’s ANDA for a period of 30 months, absent certain exceptions. *See* 21 U.S.C. § 355(j)(5)(B)(iii).

19. If the court hearing the infringement action decides the patent is valid, enforceable, and would be infringed by the product proposed in the ANDA, the FDA will not approve the ANDA until the patent expires. *Id.* If, however, the court hearing the infringement action rules before the expiration of the 30-month period that the patent is invalid, unenforceable, or not infringed, “including any substantive determination that there is no cause of action for patent

infringement or invalidity,” the FDA may approve the ANDA effective on the date when the court enters the judgment. *Id.*

C. Teva’s ANDA

20. Teva submitted its ANDA No. 216884 (“Teva’s ANDA”) seeking approval to engage in the commercial use, sale, offer for sale or importation into the United States of an oral solution and containing as the active pharmaceutical ingredients Calcium, Magnesium, Potassium, and Sodium Oxybates, 0.5 g/mL (“Teva’s Proposed Product”) before the expiration of the patents-in-suit.

21. On information and belief, the FDA lists Jazz Pharmaceuticals as the holder of New Drug Application (“NDA”) No. 212690.

22. On information and belief, NDA No. 212690 covers Jazz’s XYWAV®.

23. On information and belief, Jazz Pharmaceuticals lists the patents-in-suit in the Orange Book in connection with NDA No. 212690.

24. Teva’s ANDA includes a Paragraph IV certification with respect to the patents-in-suit.

25. On February 6, 2022, Teva sent a Notice Letter (“Teva’s First Notice Letter”) regarding Teva’s ANDA, which includes a Paragraph IV certification, to Jazz Pharmaceuticals providing a detailed statement of the factual and legal bases, which are incorporated herein by reference, for its opinion that the claims of the ’922, ’306, ’173, ’302, ’107, ’426, ’168, ’400, ’258, ’181, ’494, and ’373 patents are not infringed, directly or indirectly, either literally or under the doctrine of equivalents, by the commercial manufacture use, offer for sale, and/or sale of Teva’s Proposed Product.

26. On February 13, 2022, Teva sent a Notice Letter (“Teva’s Second Notice Letter”) regarding Teva’s ANDA, which includes a Paragraph IV certification, to Jazz Pharmaceuticals providing a detailed statement of the factual and legal bases, which are incorporated herein by reference, for its opinion that the claims of ’102 patent are not infringed, directly or indirectly, either literally or under the doctrine of equivalents, by the commercial manufacture use, offer for sale, and/or sale of Teva’s Proposed Product.

27. Teva’s First Notice Letter and Second Notice Letter (collectively, “Teva’s Notice Letters”) also contained an offer of confidential access pursuant to 21 U.S.C. § 355(j)(5)(C)(i)(III) to allow Jazz Pharmaceuticals the opportunity to review the relevant portions of Teva’s ANDA.

28. Jazz filed a complaint against Teva on March 21, 2023 in *Jazz Pharmaceuticals Ireland, Ltd. v. Teva Pharmaceuticals, Inc.*, Civil Action No. 2:23-cv-01617 (D.N.J.), alleging that Teva has infringed and will infringe the patents-in-suit by filing ANDA No. 216884 with the FDA and/or by manufacturing, using, or selling the products described in that ANDA.

29. As a consequence of the foregoing, there is an actual and justiciable controversy between Teva, on the one hand, and Jazz Pharmaceuticals, on the other hand, as to whether the claims of the patent-in-suit are invalid and/or unenforceable, and whether those claims are being infringed or will be infringed by Teva’s ANDA No. 216884, or by the manufacture, use, or sale of the product described therein.
